A. **OWP Work Element Presentation: Transit Rider Survey I**

The City and County of Honolulu Department of Transportation Services will present on the Transit Rider Survey I of the Honolulu Transit Comprehensive Operations Analysis (COA). This first COA task was funded in the FY18 OWP, and serves to meet the before-and-after study requirement of the U.S. Federal Transit Administration New Starts grant program.

The Survey objective was to identify travel patterns and socio-economic profiles of transit riders on Oahu, as well as the service preferences of current riders and the general population. The results of the Survey’s discrete components, and their integrated analysis, document baseline conditions prior to the Summer 2023 opening of the Honolulu Rail Transit Project. These findings will be compared to the post-rail opening COA Transit Rider Survey II, and inform the anticipated COA Bus-Rail Integration Plan. The main components of this presentation are Survey Overview, Survey Results, Integrated Analysis & Discussion, COA Next Steps, and Questions.

**Requested Action:** Recommend the Policy Board approve the report as evidence that the work was carried out, submit the final report to the USDOT for approval, and incorporate study findings into the metropolitan transportation planning process.

**Requested Action:** Approve the draft resolution as presented for distribution to relevant parties.
