

Appendix C: Title VI and Environmental Justice (T6/EJ) Analysis

The Title VI and Environmental Justice analysis assesses the impact of projects in communities of color and/or communities with low incomes in terms of the planned investments in these areas. All projects with specific locations were mapped and analyzed based on the estimated total project expenditures and per capita expenditures to ensure there is no significant difference in investments between T6/EJ areas and non-T6/EJ areas.

The table below shows that 32% of the planned investments are in T6/EJ areas and on a per capita basis, these areas will receive -\$2,196 less per person compared to non-T6/EJ areas. This difference can be attributed to the updated T6/EJ areas based on the 2020 Census as previous analyses were based on the 2010 Census.
