

PERFORMANCE GOALS

Performance Goals

Federal legislation now requires that states and metropolitan areas develop visions and goals for their transportation system using a combination of individual projects, programs, and strategies. The National Performance Goals are:

- Improve Safety
- Protect the condition of Infrastructure Assets
- Congestion Reduction
- System Reliability
- Freight Movement and Economic Vitality
- Environmental Sustainability

The OahuMPO Vision for 2040 is:

In 2040 O'ahu will be a place where we will have efficient, well-maintained, safe, secure, convenient, appropriate, and economical choices in getting from place to place. Our transportation system will move us and the goods we use in a manner that supports the island's high quality of life, natural beauty, economic vitality, and land use policies by supporting appropriate density development and avoiding urban sprawl. This system will promote energy conservation and economic sustainability as well as the protection of our ports of entry, preparation for emergency situations, and changes in global climate patterns.

NOW, YOU CAN HELP US TO CHOOSE THE GOALS FOR THE CENTRAL OAHU TRANSPORTATION STUDY.

WHICH OF THE NATIONAL GOALS IS MOST IMPORTANT TO YOU?

Congestion Reduction - Travel times between Central Oahu and Downtown / Kapolei on North shore.

ARE THERE ANY LOCAL GOALS YOU WOULD ADD FOR CENTRAL OAHU?

Development (Housing) (Koa Ridge + Hoopili) + its effect on traffic / Transportation in Central Oahu. Freeway access time @ Ka Uka Blvd + Meheala Pkwy. Projects ~~(5.1/4.2/3.7)~~

- Environmental Sustainability

The OahuMPO Vision for 2040 is:

In 2014 O'ahu will be a place where we will have efficient, well-maintained, safe, secure, convenient, appropriate, and economical choices in getting from place to place. Our transportation system will move us and the goods we use in a manner that supports the island's high quality of life, natural beauty, economic vitality, and land use policies by supporting appropriate density development and avoiding urban sprawl. This system will promote energy conservation and economic sustainability as well as the protection of our ports of entry, preparation for emergency situations, and changes in global climate patterns.

NOW, YOU CAN HELP US TO CHOOSE THE GOALS FOR THE CENTRAL OAHU TRANSPORTATION STUDY.

WHICH OF THE NATIONAL GOALS IS MOST IMPORTANT TO YOU?

system reliability that ^{integrates} embraces environmental sustainability, safety, infrastructure maintenance, + congestion reduction. If a multi-modal system can be developed, reliability will be imperative.

ARE THERE ANY LOCAL GOALS YOU WOULD ADD FOR CENTRAL OAHU?

* safer ^{bike} transit between Mililani + Mililani Mauka
